

CLOTH FACE COVERING INFORMATION

Cloth face coverings are produced with 100% cotton materials. Due to the 100% cotton, face coverings are expected to shrink during laundering.

After laundering (washing & drying) face coverings may become wrinkled and/or out of shape.

To reshape face covering:

- Lay flat on a hard surface
- Stretch out from each side of the face covering material
- Use hands to stretch and reshape face covering

Face covering may still appear wrinkled, however once placed on the face the face covering should stretch and fit appropriately.
