

CLIMATE LEADERSHIP AND GOVERNANCE

This section provides a foundation for other climate plan actions by creating implementation structures, addressing cross-cutting initiatives like telework, and supporting employee preparedness for climate impacts. We will also amplify efforts through policy advocacy and sharing learnings externally. As this plan is implemented...

Employees may notice:

-  Action area groups and staff leadership groups working to implement the GOCAP.
-  More information on how climate impacts affect residents and more on-the-job training about climate shocks.
-  More training and resources for remote work.
-  More fund options considering ESG (environmental, social, and governance factors) in the 457(b) retirement plan.
-  More state and federal grant funding for climate projects.

Everyone may notice:

-  More equitable community engagement efforts.
-  More County advocacy for state and federal climate action.
-  Systems built to coordinate across Alameda County agencies and with community and regional partners to reach shared goals.
-  Annual updates on plan implementation. [Sign up](#) for our mailing list to receive updates.

What you can do:

-  [Contact us](#) if you can help implement an action.
-  Let your manager know about your ideas for climate action and resilience.
-  Learn about the climate plan of your city or [unincorporated community](#).
-  Vote and contact your representatives.
-  Consider climate risk in your investments.
